

Chandu MP

Product Designer · Design Systems · AI-Augmented Workflows · B2B SaaS

chandu.mp.14@gmail.com | +91 70122 97052 | Bengaluru, India | [linkedin.com/in/chandump](https://www.linkedin.com/in/chandump) |

Portfolio: <https://chandu-productportfolio.vercel.app/>

DESIGN: Figma · FigJam · Framer · Design Systems · Token Architecture · Prototyping · User Research · Interaction Design · Motion Design

ENGG FLUENCY: HTML & CSS · Tailwind CSS · JSON Tokens · Git · Vercel

AI OPS: Claude (Figma-to-Docs) · Gemini API · Vibe Coding · Prompt Engineering · Multi-model Design Ops

SUMMARY

Product Designer with 4 years of focused digital product design across design systems, AI-augmented workflows, and 0-to-1 product builds, backed by 6 years of systems-level architectural practice. Delivered shipped products with measurable outcomes across B2B SaaS, AI platforms, and creator tools including 50K+ downloads, 65% engagement growth, and 35% conversion uplift. Experienced in UX strategy, scalable design systems, cross-functional collaboration, and developer-adjacent handoff workflows.

EXPERIENCE

Bridge Global Software Solutions · UI/UX Product Designer · Nov 2025 - Present

- Own UX strategy and design delivery across 10 concurrent B2B SaaS projects for Glanser, a Nordic enterprise platform spanning websites, portals, and intranets.
- Architected a multi-brand Figma variable system (Primitives, Semantic, Component, Spacing) that collapsed theme-switch implementation time from days to hours.
- Ship Tailwind v4 and CSS-ready JSON token packages with full component documentation covering naming conventions, accessibility standards, and implementation guidelines directly to engineering.
- Built an AI-assisted design-ops pipeline using Claude, ChatGPT, and Gemini that auto-generates living system docs from Figma; adopted as the standard handoff workflow across all Glanser projects.
- Collaborate cross-functionally with stakeholders, developers, and project managers across international teams to align design decisions with business and technical requirements.

Qurios AI · Head of Product Design · Apr 2025 - Nov 2025

- Led end-to-end product design across an AI-powered creator platform covering research workflows, social systems, and digital identity experiences, from 0 to 350+ users and 119 creator profiles.
- Reduced creator onboarding from 10 steps to 2 through backend abstraction and journey optimisation, materially improving onboarding completion rates.
- Owned product design, marketing systems, visual identity, motion design, and component libraries while supporting investor-facing product strategy and product-market fit exploration.

CultureCo · Founding Product Designer · Jan 2024 - Jan 2025

- Designed and shipped a creator commerce platform from concept to production; 400+ transactions and 65% engagement growth in alpha.
- Ran usability testing with 150+ participants, translating findings into onboarding improvements that drove a 35% conversion lift.
- Built and maintained a scalable design system improving consistency, implementation efficiency, and cross-surface coherence.
- Designed gamification systems using XP, streaks, quests, and tier-based access models to improve user retention and participation.
- Winner, Based India Hackathon 2024, selected from 250+ projects internationally.

EVM Wheels · Product Designer · Jan 2023 - Dec 2023

- Led UX strategy and end-to-end product design for a self-drive EV rental SaaS platform that achieved 50K+ app downloads and 65% user retention improvement.
- Redesigned the booking experience using A/B testing and user behaviour analysis, reducing booking drop-offs by 90% and improving task completion speed.
- Established scalable design patterns and developer-ready handoff systems to support ongoing platform growth and operational consistency.

SELF-INITIATED PROJECT

Decision Disco · Late 2025

Product Owner, Designer and Developer · decision-disco.vercel.app

- Designed and deployed an AI-powered decision support application from concept to production within 48 hours using Gemini API, Node.js, Vanilla JavaScript, and Vercel serverless infrastructure.
- Engineered multiple AI personas with distinct prompt systems, interaction behaviours, and conversational patterns tailored to different user contexts and decision-making scenarios.

SKILLS

UX & INTERACTION User Research · Usability Testing · Information Architecture · Wireframing · Prototyping · Interaction Design · Gamification · Accessibility (WCAG 2.1)

PRODUCT & STRATEGY 0-to-1 Product Design · Growth UX · A/B Testing · Conversion Rate Optimisation · Competitive Analysis · Roadmapping · OKR Alignment

SYSTEMS & VISUAL Design Systems · Token Architecture · Figma Variables · Component Libraries · Visual Design · Branding · Motion Design

TOOLING Figma · FigJam · Framer · After Effects · Lottie · Maze · Hotjar · Principle

WAYS OF WORKING Agile · Scrum · Cross-functional Teams · Stakeholder Management · Jira · Notion

EDUCATION

Google UX Design Professional Certificate · 2023 - 2024

Coursera · 7-Course Specialisation

Bachelor of Architecture (B.Arch) · 2011 - 2016

University of Kerala · COA Registered Architect

AWARDS & RECOGNITION

- **Based India Hackathon 2024, Winner - CultureCo**, selected from 250+ projects internationally
- **Solana Renaissance Hackathon 2024, Global Competitor** - blockchain-focused UX and product innovation
- **Onchain Summer Hackathon, Devfolio 2024** - blockchain UX and smart contract interaction design

Prior Systems Experience (2017–2023) · Architectural Practice

Dennis Architects, Senior Architect · GJC Designs, Junior Architect. Six years of cross-functional project coordination, systems-level design, stakeholder management, and complex constraint resolution across residential and commercial builds. Provided the structural-thinking and information architecture foundation underpinning current product design practice. COA registered.
